# LUXURY TIMBER ENTRANCE DOORS FOR SUSTAINABLE LIVING

At Bereco, we believe an Entrance Door should be more than just functional. It should embody quality, sustainability, security, and beauty. Each Door we create is built to stand the test of time, blending expert craftsmanship with cutting-edge manufacturing.

## Sustainable

Sustainability is at the core of our business. We only use timber from certified responsibly managed forests, ensuring each Door is environmentally friendly and built to last with an expected life span of 60+ years. With Bereco, you are choosing a Timber Entrance Door that will not only enhance your home, but also contributes to protecting our planet.

## Secure

Your home's security is our priority. Our timber Doors are designed and tested to the highest security standards, including PAS24:2022 and Secured By Design, and feature only the highest quality materials and insurance-approved locking systems.

## Functional

Our timber Doors are crafted with functionality in mind, combining practical features with high performance. From thermal efficiency, with whole Door U-values starting from 0.99W/m<sup>2</sup>K, to sound insulation of up to 42dB and excellent weather resistance, our Doors provide comfort and convenience without compromising on style.

## Beautiful

A Door is the first impression of your home. At Bereco, every Door is bespoke, and crafted to suit individual tastes. Meticulously finished, each Door boasts a stunning look that enhances any entrance with elegance and charm.

All information in this brochure is correct to the best of our knowledge at the time of creation. Bereco reserves the right to alter products and specifications without prior notice. Colours may vary from those illustrated. All rendered visuals in this brochure are for illustrative purposes only and may differ from the actual product.

# DESIGN THE ENTRANCE DOOR OF YOUR DREAMS

# CLASSIC RANGE zFEATURES

- ✔ **Design**  
 Create a unique statement entrance with a bespoke Bereco Entrance Door, supplied pre-hung for easy installation. Choose from single or double timber Doors, inward or outward opening, with optional fanlights and sidelights—either integrated within the frame or supplied separately for on-site coupling. With a robust 68mm Door leaf—nearly an inch thicker than standard Doors—our solid craftsmanship ensures unmatched quality and durability.
- ✔ **Security**  
 Combining style with security, Bereco Doors are 3rd party tested and certified to the BlueSky high security door scheme, PAS24:2022 and Secured By Design. They feature multi-point espagnolette locking and an ERA Fortress 3-Star Neighbourhood Watch-approved cylinder for complete peace of mind.
- ✔ **Functionality**  
 Choose a handle-operated or key-only operated 3-point espagnolette locking system. Fully 3D-adjustable hinges ensure smooth operation throughout the seasons. Opt for internal thumbturn cylinders for keyless operation indoors, and select suited locks for multiple Doors, allowing you to unlock your entire property with a single key.
- ✔ **Personalisation**  
 Our Classic Entrance Doors come with a choice of Contemporary beading for a sleek, modern pencil-round look or Traditional beading featuring decorative Ovolo mouldings and external 'putty line' chamfers. Customise further with glazing bars, leaded designs, or coloured glass to replicate original features or create your own unique design.
- ✔ **Finish**  
 We offer thousands of colour options, including RAL, BS & NCS colour charts, plus Farrow & Ball, Fired Earth, and Earthborn colour matching, along with a range of premium stain finishes. Choose single colour, dual colour, or mix and match the Door frame and leaf. Our eco-friendly, water-based paints and stains are long-lasting and backed by a 10-year warranty.
- ✔ **Ironmongery**  
 Select from a wide range of high-quality ironmongery and hardware, including handles, knockers, letterplates, and more—available in up to 11 finishes (see page 24).
- ✔ **Glazing**  
 Choose from double or triple glazing, with U-values starting from 1.0W/m<sup>2</sup>K. We also offer specialist glazing options, including acoustic and anti-sun glass, as well as obscured patterns for enhanced privacy.
- ✔ **Threshold**  
 We provide threshold solutions for every flooring type, including a Part M-approved Stormguard aluminium mobility threshold in matt aluminium or matt gold. Additional options include a solid 140mm hardwood subcill, or a 92mm subcill with multiple cill extensions from 25mm to 140mm.
- ✔ **Typical Sections:**

Ud Values from  
**1.0W/m<sup>2</sup>K**

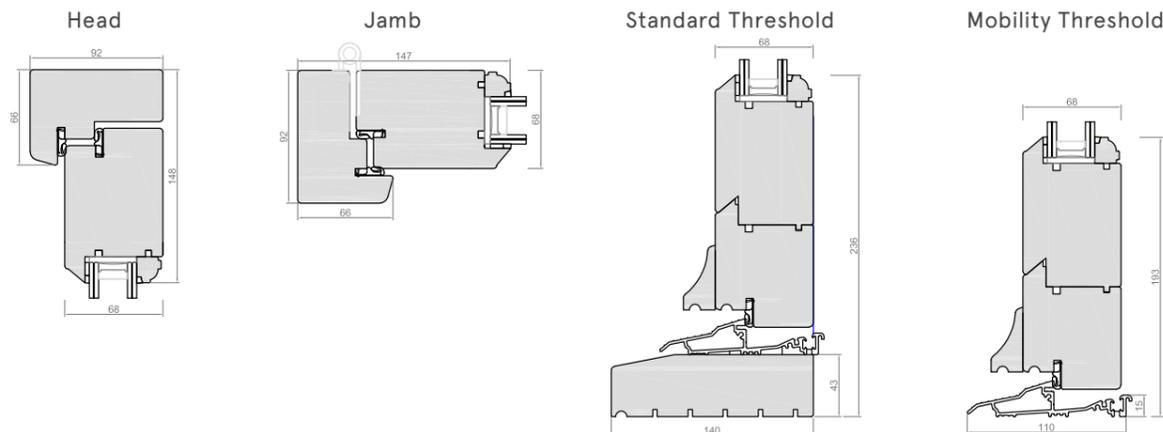

Wind Load  
**800 Pa**  
 Tested to perform against winds of **78mph**

Water Tightness  
**600 Pa**  
 Tested to withstand driving rain at **68mph**

Sturdy Door Leaf  
**68mm thick**  
 compared to industry standard of **44mm** or **54mm**

# SIDELIGHTS & FANLIGHTS

Every Bereco Entrance Door can be customised with bespoke fanlights and sidelights, enhancing both the aesthetic appeal and functionality of your home.

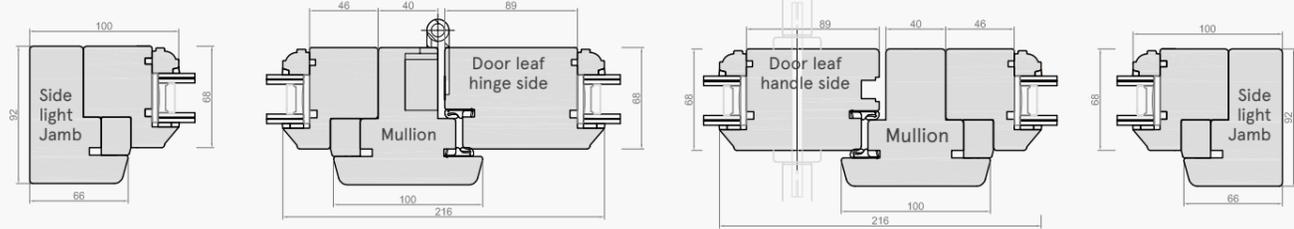

Our fanlights and sidelights can be tailored to complement any Door style, allowing natural light to flood your entrance while maintaining privacy and security. Crafted with the same attention to detail and quality as our Doors, these elegant additions feature all the same design options, including a range of glazing options, panels, glazing bars, obscured glass and more. They can be manufactured as a single frame with the Doors, or supplied separately to be coupled on site.

With Bereco, you have the flexibility to create a truly unique entrance that perfectly suits your home's character and style.

# WHAT MAKES BERECO DIFFERENT?

## Industry Leading Service

When you choose Bereco, you are not just investing in **exceptional timber Doors**; you are investing in an **industry-leading service experience**. We are committed to ensuring that every step of the process is seamless and stress-free for our customers, which is reflected in our impressive **97% recommendation rate\***.

We understand that every project is unique, and our **expert design team** is here to bring your vision to life. Our designers work closely with you to understand your specific requirements, preferences, and architectural style. From traditional to contemporary, we have the expertise to create Doors that perfectly complement your home or building.

We are confident that we will **exceed your expectations** and deliver an Entrance Door that will transform your home into something truly remarkable.

## Flawless Quality

We utilise the most up-to-date manufacturing techniques at our **state-of-the-art** facility, offering unmatched quality and finish. We undergo annual testing of our Doors audited by third party certification body Bluesky Certification, with schemes covering our products' weather performance, security, manufacturing, paint application, material sourcing, and acoustic noise reduction.

All Bereco timber Doors come with a manufacturer's warranty. We are so confident in the quality of our Doors and our factory finishing that we give a warranty on our timber for **30 years** and even offer a **10 year warranty** against defects in manufacturing and factory finishes.

## Superior Performance

Bereco timber Doors come with **enhanced security features** built-in as standard. Home insurance approved **multi-point espagnolette** locking and **Neighbourhood Watch** approved **ERA Fortress 3 star** Door cylinders make ours some of the most **secure** wooden Doors on the market today.

Our timber Doors are designed with **optimum energy efficiency** in mind. Timber is an excellent insulator and we utilise high-performance glazing and weather seals to go above and beyond the requirements of the building regulations.

Our standard 24mm double glazing provides a **sound reduction of 33dB** and our specially designed **acoustic double glazed units** offer **sound reduction of up to 42dB**, ideal for properties with traffic noise or that are close to an airport.

## Our Ethics

At Bereco, our mission has always been to supply beautifully bespoke timber Doors that do not cost the earth.

Our timber Doors are manufactured from either **FSC®100% certified** or **100% PEFC Origin certified timber**. This means that every section of timber that we use has full traceability back to a forest that is certified as sustainably managed by an internationally recognised institution, which is essential in helping in the fight against deforestation.

We are a proud and active member of the **Alliance For Sustainable Building Products** demonstrating our commitment to sustainability.

The mark of responsible forestry  
FSC® C112780
